

EXCELLENCE AND MERIT ACADEMIC AWARDS, SEMESTER ONE, 2017

The determination of Excellence and Merit academic awards is based on calculation of a student's average result. Each level of achievement is allocated a number, with an A being worth 5 points, B being worth 4 points, C, three points, D two points and an E one point. If a student has an average result above 4.5, and they have no D's, they are awarded an Excellence Academic award. If a student has an average result of 4 and above, they are awarded a Merit Academic award. Students must have completed all of the assessment during the semester. Students who study certificate courses must also be up-to-date with expected competencies to remain eligible for an Excellence or Merit award.
