

PERMISSION TO PARK IN EMMAUS SCHOOL GROUNDS

GUIDELINES

It is necessary in a school environment, with many young pedestrians and bicycle riders, to have driving rules that are considerate of the safety of all. Permission to park on the college grounds is conditional on our student drivers adhering to the following:

1. Cars are not used for school excursions.
2. Students are to enter the car park through the driveway closest to the IDT building and exit through the driveway closest to the Administration building.
3. Once parked in the school car park, students must not access the car during the school day without teacher permission.
4. Cars must not be used to travel to the Yaamba Road campus for lessons.
5. The speed limit into and exiting the car park should not exceed 10kph. Because of the volume of traffic on Main Street in the afternoon, students need to be particularly careful exiting the car park. When exiting the car park, before 3.30 pm, students are to turn left. Students are reminded that Main Street speed limit before and after school is 40kph.
6. Students are required to follow any direction from school staff regarding the car whilst on school property.
7. The driver and/or passengers should not at any time in the school vicinity, be calling out or making any undue noise or actions to attract the attention of fellow students.
8. Driving recklessly, causing undue noise or school/public concern (in the school grounds or vicinity) is considered a serious infringement of safety.

The college views very seriously any driving concern reported by staff, parents, other students or members of the public and so parents will be notified if any concerns are raised regarding their son/daughter's driving practices. The College takes no responsibility for the safety of the driver or any passengers of the vehicle. If the above procedures are not followed, the privilege of parking at the College may be removed.

CAR DETAILS – please include the details of any vehicles you may be driving to school
